SECTION 00130 - PROPOSAL EVALUATION CRITERIA

1. **GENERAL.** A Source Selection Evaluation Board (SSEB), comprised of representatives of the Corps of Engineers, User/Customer, and other required personnel, will evaluate the proposals. Offerors are advised that the technical evaluation and rating of proposals will be conducted in strict confidence in that technical/quality proposals are reviewed and rated without knowledge of the price offered. The number and identities of offerors are not revealed to anyone who is not involved in the evaluation and award process or to other offerors. Proposals will be evaluated based on the factors described herein, and the basis of award is the Lowest Priced Technically Acceptable.
2. **EVALUATION PROCESS.** The evaluation process essentially consists of four parts: proposal compliance review and responsibility determination, technical/quality evaluation, price evaluation and cost/technical trade-off analysis.
 - 2.1. Proposal Compliance Review: This is an initial review to ensure that all required forms and certifications are complete and that both a technical and price proposal were received.
 - 2.2. Technical/Quality Evaluation: The SSEB will evaluate and rate those proposals passing the first review, above. Proposals will be evaluated against the RFP requirements. All factors will be evaluated on a “go, no-go” basis.
 - 2.3. Price Evaluation: The SSEB will evaluate price proposals independent of the technical/quality evaluation. The SSEB will not have access to price information until completion of the technical/quality evaluation.
3. **EVALUATION FACTORS.** Proposals will be evaluated in accordance with the factors and subfactors below, which are listed in relative order of importance. All evaluation factors, other than cost or price, when combined, are equal to cost or price.
 - 3.1 Section I - Prime and Subcontractor Experience

The SSEB will evaluate both the extent and quality of recent experience in identified in the proposal. Documentation of successful completion of projects similar in nature and scope to this project will be favorably considered in the evaluation. Conversely, proposals that do not include substantial evidence that the offeror has experience, qualifications and production capability to successfully prosecute the proposed project will be unfavorably considered. (Similar in nature to this project is defined as the demonstration of Georgia DOT or U.S. DOT experience in the construction of interstate bridge structures of reinforced concrete of 100' to 150' standard).

3.2 Section II – Prime and Subcontractor Past Performance

The SSEB will evaluate the degree of successful completion of all experience identified in the proposal for Section I, above. Documentation of satisfactory performance of projects similar in size, scope, complexity and dollars will be favorably considered. Conversely, offers which do not achieve satisfactory performance will not be favorably considered. The Government reserves the right to check any or all cited references to verify supplied information and to assess owner satisfaction. The Government may also use other tools such as CCASS, ACASS, PPIMS, Dun & Bradstreet, etc. to gather information regarding an offeror's qualifications and past performance.

3.3 Section III – Key Personnel

- A. Individual Experience - The SSEB will evaluate the adequacy and strength of the three key personnel requirements listed in Section 00115, paragraph 2.4A, Individual Personnel Experience. The SSEB will also evaluate for compliance with specified minimum requirements, degree of qualification and experience, familiarity with local conditions, etc. At a minimum the Overall Project Manager shall have a minimum of five years experience as a project manager on similar construction projects and have a degree in engineering or construction management. The Project Superintendent shall have a minimum ten years of similar construction experience. The CQC System Manager will be evaluated using the qualification listed in Section 01451 paragraph 3.4.
- B. Management Plan and Organization Chart - The SSEB will evaluate the offeror's ability to demonstrate sound management practices, both at the home office as well as at the project site. Comprehensive plans that demonstrate a clear understanding of the work and an ability to coordinate resources to ensure successful pursuit of the work will be evaluated favorably. Plans that do not demonstrate a clear understanding of the work, that do not demonstrate a capability to coordinate resources, or that do not demonstrate appropriate excess capacity will be evaluated unfavorably. Plans will be evaluated based on the level of involvement the contractor will have in the management, oversight, control, and coordination of the work performed by subcontractors. The SSEB will evaluate the clarity, adequacy, capabilities and strengths of the offeror's organizational chart for managing a successful project. An organizational chart that clearly depicts a highly qualified on-site team supported by appropriate resources off-site and that clearly defines responsibilities will be evaluated favorably. Charts that are confusing, cluttered with duplicative entries, or that do not clearly define responsibilities will be evaluated unfavorably.

3.4 Section IV - Subcontracting Information

3.4.1 Past Performance on Utilization of Small Business.
